

Desktop Roller **Banners**

Technical Specifications

Assembly Instructions

Follow these straightforward steps to display your desktop roller banners:

- Remove the desktop roller banner from its packaging and place the base on a flat, stable surface.
- Carefully pull the graphic up from the base.
- Insert the support pole into the hole on the banner base.
- Attach the top of the graphic to the hook at the top of the support pole.
- Check that the graphic is taut and the banner is standing upright.
- To dismantle, unhook the graphic from the pole and guide it slowly back into the base.
- Return all components to the packaging for storage and transport.

Additional Information

Materials Information

Graphic: Max-Flat Light-Stop Roll-Up Media 330

The 330gsm light weight grey back banner material is PET laminated on a white printable PVC substrate. The material features a grey back for high opacity and a matte finish for vivid graphic printing. It doesn't curl and has an extremely clear edge for application.

Tensile Strength (N/5cm): 902x873

Tear Strength (N): 25x23

Peeling Strength (N/5cm): 50

Weight / GSM: 330

Finish: Matte

Shelf Time: 12 months

Application Temperature: 5 – 130°C
