Printed Mugs

Your Brand. Their Daily Brew.

Personalised mugs keep your clients' brands in view, one tea break at a time. Practical, memorable and easy to personalise, they're ideal for office desks, staff kitchens, events and customer giveaways.

Product Information

01. Flexible Design Options

Choose double-sided or wraparound printing to suit your design.

02. Built to Last

Durable ceramic mugs with a glossy finish, suitable for the microwave and resistant to dishwasher washing.

03. High-Resolution Printing

Ultra-high-resolution sublimation printing delivers bold colours and sharp details, making your mugs pop.

Double Sided Mugs

Make your brand visible from either side with artwork printed on both sides of the mug. This versatile option is ideal for logos, messages and designs that work well on their own.

- Choose the same design for both sides to give your branding a consistent look, whichever way the mug is held.
- Or choose two different designs, one on each side, to pair your logo with a message, illustration or campaign artwork.
- We position your supplied artwork for you, making it straightforward to create a professional mug without arranging the final layout yourself.

Wraparound Mugs

Give your artwork more room to shine with one complete design that wraps around the mug. This striking option is ideal for bold illustrations, patterns and artwork that flows across the surface.

- Use the wider print area to combine logos, images and text in one bold design that showcases your brand clearly.
- Supply your artwork as one complete design using the wraparound template, keeping your layout within the clearly marked print area.
- Small white gaps remain near the handle and at the top and bottom, framing your design within the available print area.
